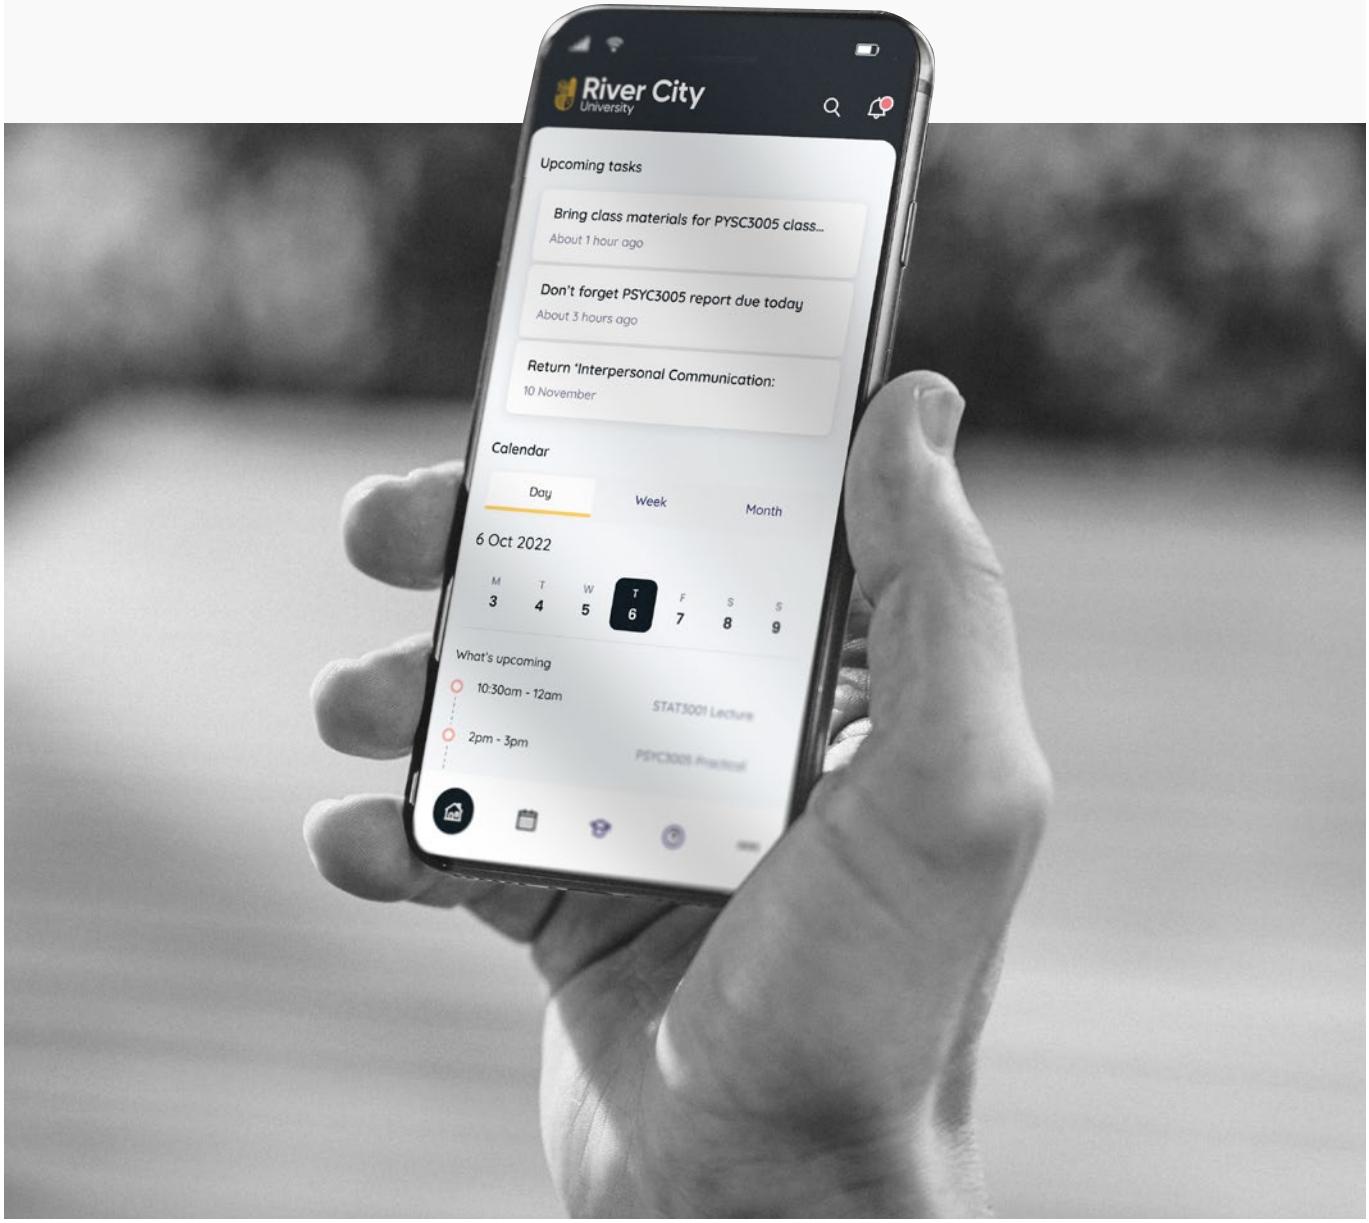
DxP Student



Drive student success with an individualised student experience

Introducing TechnologyOne's DxP Student, a revolutionary product designed to enhance student success by delivering a personalised experience through an intuitive interface that integrates data from various systems.

Simplify the student experience and allow students to focus on their studies without the hassle of administrative tasks.

DxP Student helps keep students on track by leveraging data analytics to identify when they may be struggling and guiding them to the appropiate support and services.

Providing a tailored experience ensuring that everything a student encounters is relevant to their course, location, and educational journey.

"TechnologyOne is now our one-stop-shop; our single source of truth. Our whole business operates from it."

GWMWater

We solve the complex to simplify life for our community

With more than 37 years' experience, TechnologyOne has pioneered Software as a Service (SaaS) for local government and higher education, empowering communities with mission-critical solutions.

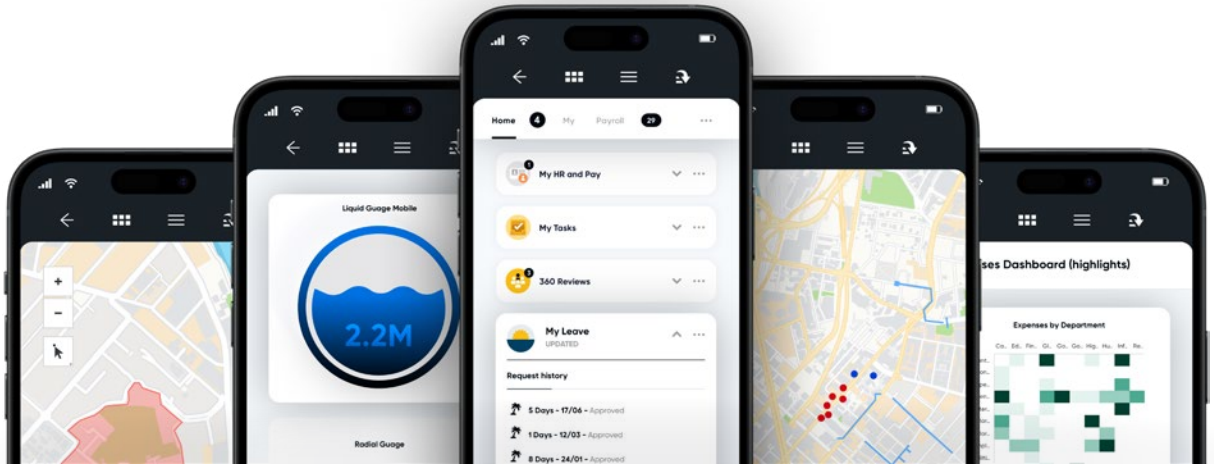
Our deep understanding and engagement with our key markets means we are able to deliver integrated, preconfigured solutions that provide proven practice, streamline implementation and reduce time, cost and risk for our customers.

We are the only company offering true global SaaS solutions, harnessing industry expertise, innovative technology and user-centred design to present unparalleled digital experiences.

Our global software enables our customers to embrace the digital revolution and an exciting new world of possibilities in a cloud-first, mobile-first world.

Over 1,300 large-scale companies, government departments and higher education institutions across the globe are supported by TechnologyOne solutions.

Future-proof your organisation with a true SaaS solution



Reinvent your system in a way no legacy software can — Software as a Service (SaaS) leverages the latest technology to deliver speed, security and scalability for your community.

SaaS delivers a mission-critical solution that empowers your organisation to provide compelling digital experiences — on any device, anywhere, at any time.

Only through the power of SaaS can your organisation embrace cutting-edge simplicity that offers a single source of truth and ensures your systems are guarded with defence-level security.

With continual upgrades, including two yearly major releases and weekly patches, empower your community with a best-in-class solution in an ever-changing environment.

Personalised Learning and Centralised Information

Tailored content and recommendations based on the student's course, performance, and interests. Supporting individualised learning paths with a single platform. Students can access all academic information, such as applications, grades, assignments, and announcements.

Unique Experience

Tailored to your students to help them succeed with extensive theming options that allow institutions to stand out and reinforce their brand identity, creating a cohesive and engaging experience for students.

Streamlined Application Process

Simplifies the application process, allowing students to easily search, compare, and apply to courses from a single platform, reducing the time and effort required.

Faster Decision Making

Enables quicker application processing and decision making, benefiting both students and institutions by reducing wait times.

Access to Resources

Offers quick access to helpful reads and FAQs, such as payment options, disability support and study materials, making it easier for students to find what they need.

Fast Deployment

Quick implementation ensures a fast return on investment, allowing your institution to benefit from the solution sooner.

Secure & Scalable

The highest security and privacy measures and scalability for future growth. Trusted by top Australian and New Zealand governments, authorities, businesses and education providers, our stringent cyber security safeguards data and protects your systems.

Simplicity in the hands of your students

A personalised and simplified student experience, allowing students to focus on their studies without the hassle of administrative tasks.

DxP Student is currently broken into two modules, apply and engage, with a vision to have additional modules delivered in the future.

DxP Student Apply

Enables new applicants and existing students to apply through a modern interface to courses, scholarships, and recognition of prior learning. Respond to further requests from the institution and respond to the offers made.

DxP Student Engage

A one-stop shop for students throughout their educational journey, featuring integrations with the LMS and future plans for timetabling. Customise information based on each student's unique circumstances and offer a clear overview of academic progress.

DxP Student

Streamlined Application Process

Simplifies the application process, allowing students to easily search, compare, and apply to courses from a single platform, reducing the time and effort required.

Personalised Learning

Provides tailored content and recommendations based on the student's course, performance, and interests, supporting individualised learning paths.

Reduced Errors

Minimises the chances of errors in the application process by providing clear instructions, validation checks, and reminders for missing information.

Access to Resources

Offers quick access to helpful reads and FAQs, such as payment options, disability support and study materials, making it easier for students to find what they need.

Real-Time Status Updates

Provides real-time notifications and updates on the status of applications, keeping students informed throughout the process.

Time Management

Includes tools like calendars, reminders, and study planner to help students manage their time effectively and stay organised.

The highest level of cyber security

Secure your digital environment and reputation against threats with stringent protection across your systems.

Through the power of SaaS, continuous and automatic upgrades ensure your organisation has the latest protection against emerging threats.

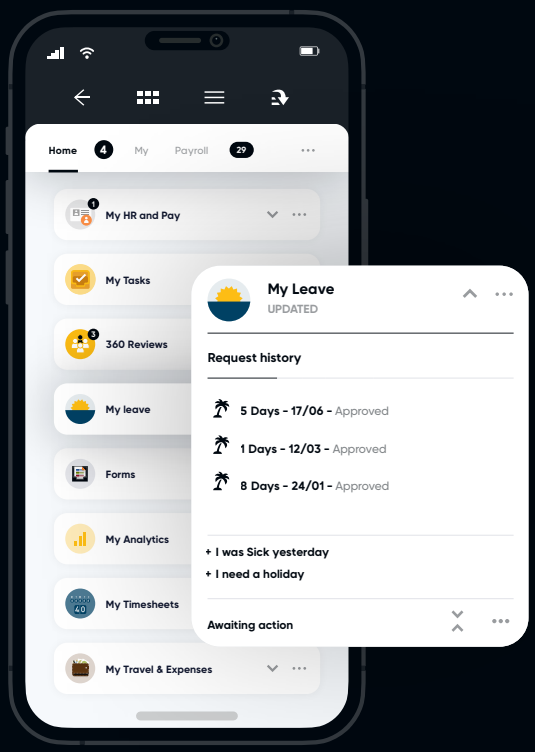
TechnologyOne is an industry-leader in cyber security, with the above security compliance certificates.

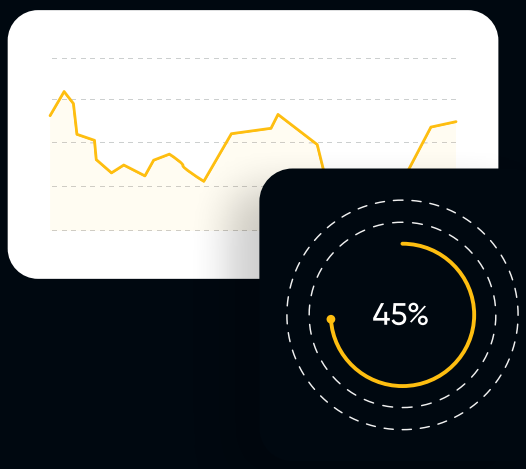
Our ~~code~~ no-code configuration

Tailor our solution for your specific needs with no programming or coding required.

Discover deep functionality for your organisation through an application that adapts to suit your unique needs. CiA is designed to seamlessly integrate with your systems to deliver an interconnected and unparalleled user experience.

Unleash streamlined functionality and cutting-edge efficiency for your organisation with faster time to value.





Real-time dashboards

Organisations must make strategic decisions to future-proof and give themselves a competitive edge.

Thrive in the face of challenges with dashboards that integrate and streamline real-time data to inform future spending and strategic decision-making.

Empower your organisation by improving efficiencies and eliminating manual and duplicated processes, reducing costs and empowering your staff to focus on your community.

SaaS+

With SaaS Plus TechnologyOne, delivers an end-to-end, customer centric solution so you can focus on serving your community.

Maximising our 'Power of One' promise, we're leveraging our unique domain expertise and taking full responsibility for the whole solution experience - reducing risk and saving you time and money.

One plan, one price, one point of call. SaaS Plus delivers:

- An all-inclusive offering tailored to the industries we serve.
- All aspects of TechnologyOne's enterprise solution.
- A single yearly fee covering all costs to implement, run, support and upgrade the solution.

Why SaaS Plus?

SaaS Plus is designed to help solve the three greatest impediments to digital transformation: time-to-value, cost, and complexity. It provides customers with a one-stop-shop, reducing much of the complexity, duplication and risk traditionally involved in ERP projects.

TechnologyOne takes complete responsibility for building, marketing, selling, implementing, supporting and running our enterprise solution for each customer, to guarantee long-term success.

SaaS Plus provides:

- Quantified scope, outcomes and approach
- Improved time-to-value – faster ROI
- Reduced project and organisational risk
- Platform for growth and business efficiency gains
- Accelerated path to a continuous improvement model

Our people

At TechnologyOne, we believe in fostering a culture of innovation, creativity, and collaboration, and have created an environment that allows our people to thrive. This culture is built into the fabric of our business, driving high performance, and underpinning our success.

Our global team of more than 1,300 passionate individuals forms the backbone of our operations. At the heart of our workforce are our more than 400 developers, powering one of the largest Australian-owned Research and Development (R&D) centres for enterprise software. In addition to our R&D centres in Brisbane and Perth, we have offshore centres in Indonesia and Vietnam, extending our capabilities to better support our customers and products.

Our developers are leaders in their field who challenge conventional thinking and go beyond the traditional realms of development methodology.

Driven by a commitment to solving complex business problems for our customers, our team has delivered a massively broad and deep global SaaS ERP solution, competing and triumphing against multinational giants with tens of thousands of staff.

Our customers are our true north guiding the decisions we make, the people we employ and the processes we create. We continue to invest in our Compelling Customer Experience program, which gives our people the ongoing training and support they need to deliver outstanding customer experiences.

About TechnologyOne

TechnologyOne (ASX: TNE) is Australia's largest enterprise software company and one of Australia's top 100 ASX-listed companies, with locations globally.

We provide a global SaaS ERP solution that transforms business and makes life simple for our community. Our deeply integrated enterprise SaaS solution is available on any device, anywhere and any time and is incredibly easy to use. Over 1,300 leading corporations, government agencies, local councils and universities are powered by our software.

Since 1987, we have been providing our customers enterprise software that evolves and adapts to new and emerging technologies, allowing them to focus on their business and not technology.
